

**TUPPENY  
BROCK**

VICE PRESIDENT, BUSINESS DEVELOPMENT PRODUCTION SOLUTIONS

**Petrofac**

**Education:**

Undergraduate degree in chemistry, Dartmouth College; MEng degree in Reservoir Engineering, Heriott-Watt University.

**Professional Experience:**

Brock, born in the United States, has 25 years' experience in the energy business. After an undergraduate degree in chemistry at Dartmouth College, he started with Combustion Engineering as a nuclear engineer before moving into the fossil power generation area in field engineering and operations and sales and marketing. Following GTL related work with Mossgas and Soekor; Brock took an MEng degree in Reservoir Engineering at Heriott-Watt University, and then worked in various reservoir engineering and project development roles for Edinburgh Petroleum Systems, JCI Venture Projects, and World GTL.

Brock joined Petrofac in May 2002 and has held a series of business development, subsurface and project management roles within the Energy Development division of Petrofac which focuses on investing where Petrofac's services and skills can add value to development and production of oil and gas. Since January 2009, he has been the VP Business Development for the Production Solutions group within Petrofac. He has worked on projects in numerous countries in Sub Saharan Africa, Russia and the FSU, Malaysia, Algeria and Tunisia, and various assets in the Middle East.

Brock has lived in a number of countries and is currently based in London.
